***GRADUATION DAY: a time to celebrate!***

Cultures all over the world celebrate academic achievement through graduation ceremonies. **46)** \_\_\_\_\_. On the actual graduation day students enter the ceremony as “graduands” and leave as “graduates”, thus passing into a new stage of their lives. The whole idea of graduation dates back to the 12<sup>th</sup> century when scholastic (учёный, имеющий образование) monks participated in various ceremonies. **47)** \_\_\_\_\_. Since then, graduation has evolved to suit each society. In medieval times, priests began to wear different coloured hoods and robes to symbolize their level of knowledge and specialization. **48)** \_\_\_\_\_. Every graduation ceremony is different. **49)** \_\_\_\_\_. A fairly popular ritual is the tossing (подбрасывание) of the graduation caps into the air at the end of the ceremony. **50)** \_\_\_\_\_. Graduation ceremonies occur not only at high institutions of learning. Kids, 3-5 years old even go through graduation as they leave kindergarten and enter primary school. They start kindergarten knowing only how to talk and they leave knowing how to count and write letters. Now that calls for a celebration with some proud parents and teachers!

Match texts 1- 7 with headings A – H. Use the headings only once. There is one you do not need to use.

- A. ELIMINATE WASTE**
- B. CLIMATE CHANGE**
- C. IS BIGGER BETTER?**
- D. ON THE RISE**

- E. AWARENESS DAY**
- F. CITY BAN PROPOSAL**
- G. CONSERVATION PROGRAMME**
- H. A NATURAL TREASURE**

1. \_\_\_ A study by a group of Australian researchers suggests that global sea levels could go up by as much as 50 cm over the course of this century, should current trends continue. This is particularly worrying for island nations like the United Kingdom who already lose hundreds of square miles of land each year due to erosion. The research is based on data from locations around the globe and covers a 130-year period.
2. \_\_\_ How can we live less wastefully and support the environment so that it may be healthy for generations to come? It may seem like an overwhelming task but it takes just three steps to make a real difference: we must reduce, reuse and recycle! Before we throw anything away, we must think if there is any way we can use it for another purpose. It is good for your finances too!
3. \_\_\_ The Earth has warmed by three quarters of a degree centigrade over the last hundred years. Alarmingly, more than half of this warming has occurred since the 1970s. We can no longer question whether human activity has contributed to this rise. The emission of greenhouse gases such as carbon dioxide, methane and nitrous oxide has affected our climate dramatically. Depending on our emissions, the average global temperature could rise between 1.1 and 6.4 degrees by the end of the century.
4. \_\_\_ Declared a World Heritage area in 1981, The Great Barrier Reef is the largest structure built by living organisms. It is the only living organic collective that is visible from the Earth's orbit. Covering a territory of more than 300,000 square kilometres, it is made up of beautiful islands and idyllic coral cays. It contains the world's largest collection of coral reefs. No wonder the Australians are so proud!
5. \_\_\_ Birkbeck College is open to the public on the 23rd of May from 11 am to 5.30 pm to get us thinking on a wide variety of topics. Join in the many workshops and you will get the opportunity to find out how your lifestyle affects the environment, the dos and don'ts of recycling and much, much more! You can even bring in your heating bills and get expert advice on how you can save energy at home!
6. \_\_\_ Want to live and/or work in a pleasant environment, a laidback city? Then private cars must go! The only permitted motor vehicles would be buses, small taxis and vehicles for essential services. This would solve the current problems of congestion and parking and improve the quality of the air. Who wants to drive at 6 miles per hour, pollute the atmosphere and fight with pedestrians? We can beautify the city and improve the quality of life for people who live in the centre if so desire!
7. \_\_\_ Genetic modification has made it possible for farmers to grow crops that previously seemed impossible: huge plants bursting with natural pesticides and vitamins. Such crops mean that people in third-world countries won't have to go hungry every day because there will be enough to feed the whole of the world's population. On the other hand, some people fear that GM crops could pose more risks than benefits to humans.

2. \_\_\_\_ How can we live less wastefully and support the environment so that it may be healthy for generations to come? It may seem like an overwhelming task but it takes just three steps to make a real difference: we must reduce, reuse and recycle! Before we throw anything away, we must think if there is any way we can use it for another purpose. It is good for your finances too!

3. \_\_\_\_ The Earth has warmed by three quarters of a degree centigrade over the last hundred years. Alarmingly, more than half of this warming has occurred since the 1970s. We can no longer question whether human activity has contributed to this rise. The emission of greenhouse gases such as carbon dioxide, methane and nitrous oxide has affected our climate dramatically. Depending on our emissions, the average global temperature could rise between 1.1 and 6.4 degrees by the end of the century.

4. \_\_\_\_ Declared a World Heritage area in 1981, The Great Barrier Reef is the largest structure built by living organisms. It is the only living organic collective that is visible from the Earth's orbit. Covering a territory of more than 300,000 square kilometres, it is made up of beautiful islands and idyllic coral cays. It contains the world's largest collection of coral reefs. No wonder the Australians are so proud!

5. \_\_\_\_ Birkbeck College is open to the public on the 23rd of May from 11 am to 5.30 pm to get us thinking on a wide variety of topics. Join in the many workshops and you will get the opportunity to find out how your lifestyle affects the environment, the dos and don'ts of recycling and much, much more! You can even bring in your heating bills and get expert advice on how you can save energy at home!

6. \_\_\_\_ Want to live and/or work in a pleasant environment, a laidback city? Then private cars must go! The only permitted motor vehicles would be buses, small taxis and vehicles for essential services. This would solve the current problems of congestion and parking and improve the quality of the air. Who wants to drive at 6 miles per hour, pollute the atmosphere and fight with pedestrians? We can beautify the city and improve the quality of life for people who live in the centre if so desire!

7. \_\_\_\_ Genetic modification has made it possible for farmers to grow crops that previously seemed impossible: huge plants bursting with natural pesticides and vitamins. Such crops mean that people in third-world countries won't have to go hungry every day because there will be enough to feed the whole of the world's population. On the other hand, some people fear that GM crops could pose more risks than benefits to humans.

1. A combination of accommodation and transport, a camper van is a great way to get around. You can spend your holiday at your own pace and enjoy some quality time with your family. As you are in charge of the driving, you can choose your own routes. But perhaps the best thing of all is having your own conveniences on board to make trip easier.

2. If you fancy the idea of getting away from the congestion in the city and would like to experience what life used to be like in the past, then come and join us at "River Farm". We are an organic farm that does more than just grow vegetables! We also educate the population about the environment. We seek gardeners who are available this summer. Benefits include a weekly salary, private housing and a beautiful, relaxing environment.
3. You will be met at Beijing International Airport by one of our representatives and taken to your accommodation. The following morning we will commence our journey to Simatai by luxury coach, where your adventure will begin. Please, make sure you have comfortable shoes as the Great dragon, winds up and down!
4. It was an unbelievable experience – the scenery so white and yet there were varieties of white I had never seen before. The giant icebergs we sailed past were almost close enough to touch; the penguins and seals ignored our presence and continued their usual business. And in the far distance I caught sight of a whale. Amazing!
5. Inside the diving cage my knees began to shake. Then, as if out of nowhere, the great white shark appeared. Brought by the smell of the sardines, it circled near me, its razor-sharp teeth just centimeters away. Its powerful body shook the boat before it descended back into the depths of the ocean.
6. Can you imagine going on a journey and not knowing where you are going to go? Perhaps you would like to take a risk or leave the decision to someone/something else? Then all you need is dice. Throw it and decide where to turn – odd numbers mean turn left, even turn right. You never know what surprises lie ahead!
7. Yoga is a journey of discovery where we learn to value ourselves and understand who we are. The practice of yoga is said to improve a person's health and well-being. Its aim is to bring together our material, physical, mental, intellectual and spiritual levels so that we feel at peace with ourselves.
